PURPOSE OF THE REPORT

23 CFR § 450.334 requires that the “Metropolitan Planning Organization (MPO) develop a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C. Chapter 53 were obligated in the preceding program year.” Furthermore, 23 CFR §450.334(b) states that the Annual Project Listing (APL) must “be consistent with the funding categories identified in the MPO’s Transportation Improvement Program.” Obligated projects in this report are categorized into four project types: highways, other grouped projects, transit, and bicycle and pedestrian.

This report provides an overview of the transportation planning and programming process and the resulting federal funding obligation of the Transportation Improvement Program (TIP) for the Victoria MPO’s 2022 fiscal year (October 1, 2021, to September 30, 2022). Obligation is the Federal government’s commitment to pay its fair share of the project cost. Obligation happens at the time when the project is executed, and the State of Grantee requests the funds. For Federal Transit Administration (FTA) projects, obligation occurs when the FTA grant is awarded. In summary, an obligated project is one that has been approved by the Federal government for reimbursement. Projects contained in the APL may not have been initiated or completed in the fiscal year.
